Polymer Photochemistry **6** (1985) 483–486

CONTENTS OF VOLUME 6

Number 1

Emission of Substituted Pyrylium and Thiapyrylium Salts: Phosphorescence and Delayed Fluorescence Emission in Polymeric Matrices 1
V. WINTGENS, J. POULIQUEN, J. KOSSANYI (France)
J. L. R. WILLIAMS and J. C. DOTY (USA)

A Reversible Photoreaction of Iron(III) Chloride in Poly(vinyl chloride) Film 21
E. D. OWEN and S. R. BROOKS (Great Britain)

Photopolymerization Initiated by Charge-Transfer Complex: VIII—Effect of Solvent 31
SUBASINI LENKA, PADMA L. NAYAK and SANJAY K. NAYAK (India)

Photochemical and Photophysical Investigations on Bisphenol-A-Epichlorohydrin Condensation Polymers and Model Compounds 41
H.-J. TIMPE, C. GARCIA (German Democratic Republic), S. P. PAPPAS, L. R. GATECHAIR, E. L. BRESKMAN and R. M. FISCHER (USA)

The Influence of H-Donors on the Photodecomposition of Selected Water-Soluble Photoinitiators 59
RAWDON A. BOTTOM, JAMES T. GUTHRIE and PETER N. GREEN (Great Britain)

Amino Acids from Cellulose Reacted in Radio-Frequency Plasmas Containing Hydrogen and Nitrogen 71
T. L. WARD, E. J. CONKERTON and R. R. BENERITO (USA)

Announcement 83

Number 2

Colour Difference Analysis of Lightfastness for Some Direct Dyes 85
MOUSTAFA IBRAHIM and S. SHAKRA (Egypt)

Photolysis of the Azide Group of Linear Polyester Containing 3-Azido-*o*-phthalic Groups 97
MICHALINA SIEROCKA, JERZY PACZKOWSKI and MARIA TOCZEK (Poland)

Polymer Photochemistry (**6**) (1985)—© Elsevier Applied Science Publishers Ltd, England, 1985. Printed in Northern Ireland

The Photochemically Induced Grafting of 2-Hydroxyethyl Acrylate onto Regenerated Cellulose Films from Aqueous Solutions 111
RAWDON A. BOTTOM, JAMES T. GUTHRIE and PETER N. GREEN (Great Britain)

Influence of the Dipole Moment on the Tinctorial Power of Some Monoazo Dyes 125
S. SHAKRA and I. K. HAKIM (Egypt)

Free Radical Formation and Degradation of Cellulose by Ionizing Radiations 135
YOSHIO NAKAMURA, YOSHITAKA OGIWARA and GLYN O. PHILLIPS (Great Britain)

Book Review 161

Number 3

Photopolymerization Initiated by Charge-Transfer Complex: IX—Photopolymerization of Methyl Methacrylate Initiated by α-Picoline–Sulphur Dioxide Charge-Transfer Complex: Effect of Solvent 163
PADMA L. NAYAK, SUBASINI LENSKA and SANJAY K. NAYAK (India)

Kinetics of Spatial Structures in the Photodegradation of Polymers 175
V. N. GENKIN (USSR)

Mechanism and Kinetics of Photoradical Reactions in Polyacrylic Acid. 195
E. N. SEROPEGINA, G. G. KOCHETKOVA, N. V. FOCK and M. YA. MEL'NIKOV (USSR)

Studies of the Electronic Energy Migration and Trapping in Polystyrene 205
K. SIENICKI and C. BOJARSKI (Poland)

Polymer Photophysics: A Model Approach 215
F. C. DE SCHRYVER, J. VANDENDRIESSCHE, K. DEMEYER, P. COLLART and N. BOENS (Belgium)

Spectroscopic and Photoconductive Properties of Polymers Containing *trans*-1,2-Bis(9-carbazolyl)cyclobutane Units Sensitized by 2,4,7-Trinitrofluorenone 221
SHIGEO TAZUKE, TAKASHI INOUE, SHOGO SAITO, SUMIO HIROTA and HIROSHI KOKADO (Japan)

Photoinduced Graft Copolymerization: X—Graft Copolymerization of Methyl Methacrylate onto Wool using Isoquinoline-Sulphur Dioxide Charge-Transfer Complex as the Initiator 235
SHASHADHAR SAMAL, SUBASINI LENKA, PADMA L. NAYAK and G. SAHU (India)

Announcements 245

9075

Number 4

Kinetics of Photograft Copolymerization of Vinyl Monomers to Brominated Poly(acrylonitrile) in Dimethyl Sulphoxide 247
HAJIME MIYAMA, NOBUYUKI FUJII, KOETSU IKEDA and ATSUSHI KUWANO (Japan)

Radical Reactivity of 2,2,6,6-Tetramethylpiperidine Derivatives: A Kinetic ESR Study 259
A. FAUCITANO, A. BUTTAFAVA, F. MARTINOTTI, F. GRATANI and P. BORTOLUS (Italy)

The Interaction of UV-Absorbers with Hindered Piperidines in Photostabilization of *cis*-1,4-Polybutadiene 273
JULIA LUCKI (Sweden)

Photoinduced Graft Copolymerization: XII—Graft Copolymerization of Methyl Methacrylate onto Wool using Peroxydiphosphate as the Photoinitiator 293
SHASHADHAR SAMAL, SUBASINI LENKA, PADMA L. NAYAK and GANGADHAR SAHU (India)

Photo-Oxidation of Styrene-Butadiene Copolymer: Importance of a Copolymer–Oxygen Collision Complex 303
MARIA NOWAKOWSKA (Poland)

Book Reviews 319

Number 5

Further Studies on the Effects of Temperature and γ-Radiation on the Electrical and Optical Properties of some Solid Alizarin and Quinizarin Metal Chelates 323
M. M. ABOU SEKKINA and M. A. EWAIDA (Egypt)

Photosynthetic Membranes. A Model Study of the Influence of Photoinitiated Grafting and Grant Polymerization of 1,6-Hexanediol Diacrylate and 4-(*N*-Ethyl,*N*-2-Acryloxyethyl)amino-4′-Nitroazobenzene, as Co-Monomers, onto Polypropylene Ribbon, on Permeation and Diffusion Coefficients of Oxygen and Nitrogen 339
I. R. BELLOBONO, B. MARCANDALLI, E. SELLI, D. COMI and L. RIGHETTO (Italy)

Matrix Effects in Erythrosine Sensitized Photolysis of Diazo Compounds 347
H. BÖTTCHER, J. MARX, F. W. MÜLLER and U. PAPENDIECK (German Democratic Republic)

Fading Characteristics of Some Monoazo Dyes on Cellulose Diacetate and Polyamide Films: Part I 361
F. M. TERA, L. A. ABDOU, M. N. MICHAEL and A. HEBEISH (Egypt)

Fading Characteristics of Some Monoazo Dyes on Cellulose Diacetate and Polyamide Films: Part II. 375
F. M. TERA, L. A. ABDOU, M. N. MICHAEL and A. HEBEISH (Egypt)

Xerographic Study of Neat Polymers Containing *trans*-1,2-Bis(9-carbazolyl)cyclobutane Units 385
SHIGEO TAZUKE, TAKASHI INOUE and HIROSHI KOKADO (Japan)

Biomass Photochemistry: VI—Light-Induced Oxidation of Phlobaphene from Wood 393
NELSON DURÁN (Brazil), JAIME BAEZA, JUANITA FREER, NINON ROJAS (Chile) and MARIA G. NASCIMENTO (Brazil)

Book Review 403

Announcement 405

Number 6

Photo-Induced Polymerization of Diethylene Glycol Diacrylate in the Presence of Poly(methyl methacrylate): 1—Polymerization without any Photoinitiator 407
D. BRAUN and R. GEHRISCH (FRG)

Photo-Induced Polymerization of Diethylene Glycol Diacrylate in the Presence of Poly(methyl methacrylate): 2—Polymerization with 9-Phenylacridine as the Photoinitiator 415
D. BRAUN and R. GEHRISCH (FRG)

Effect of Morphology on the Photooxidation of Polypropylene Films 425
F. P. LA MANTIA, G. SPADARO and D. ACIERNO (Italy)

Octene-1 Linear Low Density Polyethylene Photooxidation 437
ELISABETH FANTON (France), BERNARD PELLEREAU (Switzerland), RENE ARNAUD and JACQUES LEMAIRE (France)

Photochemical Behaviour of Thio-organotin Stabilizers in Polystyrene Films 453
L. JIRÁČKOVÁ-AUDOUIN, V. BELLENGER, J. VERDU and D. RANCEZE (France)

Chemical Effects of UV Radiation on Aqueous Solutions of Heparin-Ca Salt 465
KHURSHID A. KHAN, RIAZ FAROOQ and MOHAMMAD N. IQBAL (Libya)

Short Communication

Photochemical Properties of Phenyl Vinyl Ketone Copolymers in Solid State and Solution. 475
G. NENKOV, T. BOGDANTSALIEV, T. GEORGIEVA and V. KABAIVANOV (Bulgaria)
